

LIFE 2010//COLLIDE
...because a life of faith
should be dynamic.

Our faith should not be put up on a shelf and never used; rather, it should be exercised and given a chance to grow. If we are truly living out our life of faith – then we're bound to collide with the world around us.

At this year's LIFE conference we will explore four main biblical "collisions":

the collision of Creation
(nothing//everything)

the collision of the Incarnation
(God//humanity)

the collision of Faith
(belief //unbelief)

the collision of the Church
(individualism//community).

Come and find out what happens when God's world meets ours. For more information go to: Life2010.org
